### Principal's Report:

- Additional long-term support in the front office
- Child Find begins tomorrow and runs through the end of the month for PreK and K.
- Staffing meetings for next school year begins this month

Based on our Fall MAP results we have a large percentage of students (grades 3-5) in math and reading that fall in the A/M/E (Approaching, Meets, Exceeds) categories. We need to move more of the students from the Approaches category into the Meets/Exceeds category. This will make a big difference in end of the year scores.

### **Example 3<sup>rd</sup> grade Reading:**

**Fall A/M/E 69.6% M/E 28.3%**

**Winter projection: A/M/E 63.3% M/E 28.6%**
